VA CAREER OPPORTUNITIES

The Career You Want. The Future You Deserve.

*“To Care for Him Who Shall
Have Borne the Battle and for
His Widow, and His Orphan.”*

- Abraham Lincoln, March 1865

WHY VA?

★ THE BEST CARE

VA – Keeping the Promise to Those Who Served

More than a century ago, President Lincoln made a promise to America’s servicemen and women, pledging the care and concern of a grateful Nation for the sacrifices they made to preserve freedom. Since 1930, the mission of the Department of Veterans Affairs (VA) has been to keep that promise. Today, VA offers veterans one of the largest, most comprehensive health care systems in the United States with more than 158 hospitals, 800-plus ambulatory and community-based outpatient clinics, 132 nursing homes, and many other facilities, such as domiciliaries and readjustment counseling centers.

★ THE BEST EMPLOYMENT

VA and Occupational Therapy

A career as an occupational therapist with VA offers a future that is dynamic, innovative, and collaborative. As valued members of the VA system’s patient care teams, occupational therapists contribute directly to the interdisciplinary process of planning for patient care, and they apply the latest advances in rehabilitative treatment. In return for their commitment to quality health care for our Nation’s veterans, VA offers its occupational therapists competitive salaries, first-rate employment benefits, nationwide job transfer opportunities, and ample paid leave. Consider a career as a VA occupational therapist and be rewarded by the essential role you’ll play in helping VA keep the promise to those who served.

THE BEST PATIENTS

Young or old, male or female, it doesn't matter: Veterans have a special camaraderie with each other. And as any VA occupational therapist will explain, veterans extend that bond to their rehabilitation care team. From injured active duty personnel to middle age and elderly veterans, our patients rely on their VA caregivers to develop unique and resourceful treatment interventions, often for complex medical conditions. Veterans count on VA for rehabilitative care – some for the rest of their lives. Regardless of financial resources, the enrolled veteran is assured treatment from the onset of a condition through goal achievement, or until maximum benefit from interventions is achieved. As a result, VA occupational therapists form lasting relationships with many brave, grateful individuals who have served our Nation.

THE BEST TECHNOLOGY

VA is committed to technology-driven care that enhances staff performance and improves patient results. After years of development, VA now has the most comprehensive computerized patient records system in the Nation. The system puts each veteran's medical records, lab results, x-rays, EKGs, and more at the fingertips of occupational therapists and the entire patient care team as they work together to design treatment interventions. In addition, VA rehabilitation teams also experience the benefit of working with today's state-of-the-art assistive technologies with the goal of improving patient independence.

THE BEST NETWORKING

Like no other health care system, VA offers vast networking opportunities for occupational therapists. Through online mail groups and regular conference calls, VA's occupational therapists have access to hundreds of their peers to share and learn new information and rehabilitative techniques. Many VA occupational therapists are leaders in the field who serve as in-house mentors and regularly share their research and best practices. The National VA Occupational Therapy Advisory Council also partners with the American Occupational Therapy Association (AOTA) to advocate for needed change at the national level. When you join the VA health care team, you join a large, organized voice for occupational therapy.

“Having worked in the private sector, I can honestly say that this is the best place I have ever worked. We have flexibility with our programs. We have a pet therapy program, work with both inpatients and outpatients, and we are involved in many hospital-wide projects. We truly make a difference, for veterans and in our profession.”

— Liz Downes
OTR/L, Chief Occupational Therapist, White River Junction
