VA Locum Tenens:

- 1,400 locations nationwide, streamlined credentialing process, and personalized orientation in a great location.
- One consistent experience, from one location to the next: Computerized patient records, networked nationwide; consistent medical procedures; and the most courageous patients on Earth reporting the highest patient satisfaction.

Dr. Joseph Lalka – Former locum, current full-time primary care:

“The staff here is great. Coming in as a locum allowed me to test drive VA, and it’s fulfilling to serve those who have served our Nation.

“The motive here is not profit: There’s no goal to churn patients in and out. You don’t have to practice defensive medicine.”
